Dear Ladies and Gentlemen,

The purpose of this letter is to confirm the terms and conditions of the swap transaction entered into between us on the Trade Date specified below (the "**Transaction**"). If a Confirmation was exchanged between the parties in respect of this Transaction on or around the Trade Date, this letter will supplement and form part of such Confirmation and, together, they will constitute the "**Confirmation**" as referred to in the Agreement specified below. In the event of any inconsistency between such earlier Confirmation and this letter, the provisions of this letter will apply.

The definitions and provisions contained in the 2021 ISDA Interest Rate Derivatives Definitions as published by the International Swaps and Derivatives Association, Inc. are incorporated into this Confirmation, provided that in the event of inconsistency between this Confirmation and the 2021 ISDA Interest Rate Derivatives Definitions, the provisions of this Confirmation shall prevail.

Any change to the reference rate underlying the Transaction(s) entered into under this Agreement shall be made in accordance with the Conditions and not the 2021 ISDA Interest Rate Derivatives Definitions (a "**Benchmark Event**").

Unless otherwise defined herein, capitalised terms used but not otherwise defined in the Confirmation shall have the meanings ascribed to them in Clause 1 of the Master Definitions Schedule (the "**Master Definitions Schedule**") set out in the Incorporated Terms Memorandum (the "**Incorporated Terms Memorandum**") which is dated on or about the Closing Date and signed, for purposes of identification, by, *inter alios*, Party A and Party B.

This Confirmation supplements, forms part of and is subject to the 2002 ISDA Master Agreement dated on or about the date of this Confirmation (the "**Agreement**") between Party A and Party B. All provisions contained in or incorporated by reference in the Agreement will govern this Confirmation except as expressly modified below.

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-PLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

d is the number of calendar days in the relevant Calculation Period;

d_o is the number of London Banking Days in the relevant Calculation Period;

i is a series of whole numbers from one to d_o, each representing the relevant London Banking Day in chronological order from, and including,

the first London Banking Day in the relevant Calculation Period;

LBD means a London Banking Day;

London Banking Day means any day upon which banks are open for general banking business in London (excluding for the avoidance of doubt any bank holidays or a Saturday or a Sunday);

SONIA_{i-pLBD} means, in respect of any London Banking Day falling in the relevant Calculation Period, SONIA for the London Banking Day falling five London Banking Days prior to that London Banking Day.

If, in respect of any London Banking Day in the relevant Observation Period in respect of the relevant Calculation Period, the Calculation Agent determines that SONIA is not available on the Screen (as defined in the Incorporated Terms Memorandum) or has not otherwise been published by the relevant authorised distributors, SONIA shall be: (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at close of

business on the relevant London Banking Day; plus (ii) the mean of the spread of SONIA to the Bank Rate over the previous five London Banking Days on which SONIA has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate.

Notwithstanding the above:

- (a) in the event the Bank of England publishes guidance as to (i) how SONIA is to be determined or (ii) any rate that is to replace the SONIA Reference Rate, Condition 7.5 of the Notes shall apply *mutatis mutandis*, including that any references to the "Servicer" shall be deemed references to the Calculation Agent; and
