## RATINGS

### **Rating Action: Moody's Ratings: No adverse rating impact on Notes issued by Driver Master S.A., Compartment 2 following tap issuance and programme renewal for a further 12 months**

---

25 Jun 2026

Paris, June 25, 2026 -- Moody's Ratings (Moody's) announced today that the purchase of additional receivables funded by the increase of existing Notes' size (the "Tap Issuance"); the renewal of the revolving period for another 12 months; and other amendments would not, in and of itself and as of this point in time, result in a reduction, placement on review for possible downgrade or withdrawal of our current ratings of Class A and Class B Notes (the "Notes") issued by Driver Master S.A., Compartment 2 (the "Issuer").

Under the amendments becoming effective in June 2026 (i) the Issuer has extended the revolving period expiration date by one year until June 2027 and the legal maturity date of the Notes until May 2035; (ii) the Issuer purchased, in addition to the regular revolving purchases, receivables with an outstanding discounted balance of EUR 1.981 billion. This increased the overall asset pool to approximately EUR 10.2 billion outstanding discounted balance; (iii) changed the notes interest rate and swap rates; (iv) changed the Class A target overcollateralization level, applicable during the revolving period to 10.25% from 10.10%; (v) changed the early amortization event Class A overcollateralization trigger level to 9.85% from 9.70%; and (vi) increased the concentration limits of Classic Credit loans to 14% from 10%, of Individual Credit loans for new vehicles to 8% from 5%, of Individual Credit for used vehicles to 27% from 17%.

The purchase of the new receivables is funded by the Tap Issuance of additional Notes under the existing series of Notes and the subordinated loan. The outstanding balance of the Series 2015-1 Class A Notes increased by EUR 1,795.0M to EUR 8,786.9M. The outstanding balance of the Series 2023-1 Class B Notes increased by EUR 77.0M to EUR 380.5M. In addition, the subordinated loan, fully repaid before this Tap Issuance, increased to EUR 109.0M. The additional Notes have not elevated the outstanding Notes series' amounts above their respective maximum issuance amounts. The credit enhancement level, in percentage terms, of the Class A Notes decreased marginally by the Tap Issuance, while the credit enhancement of the Class B Notes remained the same. The credit enhancement levels remain within the limits set in the program documents.

The principal methodology used in reaching this conclusion and in monitoring the ratings of the Notes issued by the Issuer is "Moody's Global Approach to Rating Auto Loan- and Lease-Backed ABS", published in June 2025. Please see the Rating Methodologies page on <https://ratings.moodys.com> for a copy of this methodology.

Moody's opinion addresses only the credit impact associated with the proposed action, and Moody's is not expressing any opinion as to whether the proposed action has, or could have, other non-credit related effects that may have a detrimental impact on the interests of holders of rated obligations and/or counterparties.
