In the absence of any indication to the contrary, all figures shown in the tables have been rounded in accordance with standard commercial practice. Accordingly, minor discrepancies may arise if they are aggregated. An "X" in the table denotes the absence of any figure for the item in question. If the figure is less than €1 million after rounding, a zero is inserted.

Foreword

The Pillar 3 Disclosure Report for the period ended March 31, 2026 is published in accordance with the supervisory law requirements of the Basel III framework (Regulation (EU) No. 2024/1623 – the Capital Requirements Regulation or “CRR III” – of the European Parliament and the Council of May 31, 2024 to amend Regulation (EU) 575/2013 (CRR)).

As Regulation (EU) 2024/1623 is an amendment to Regulation (EU) 575/2013, this document uniformly uses the term CRR. Unless otherwise specified, the term CRR always refers to the current version that was amended by the above-mentioned regulation and has been in force since January 1, 2025.

The Regulation is supplemented with the Implementing Technical Standards issued by the European Banking Authority (EBA) EBA/ITS/2021/637 of June 28, 2021 and the corresponding Commission Implementing Regulation (EU) 2024/3172 of November 29, 2024, which provides further information on the tables included in the report. This Report is based on the legal requirements in force as of the reporting date.

The entry into force of the CRR provided in large measure a uniform legal basis for European banking supervisory law. The requirements of the CRR largely replaced the disclosure obligations regulated at national level.

Volkswagen Bank GmbH acts as the parent of the institution group for supervisory law purposes and is responsible for implementing the requirements of supervisory law within the Group. This also includes the obligation to make regular disclosures in accordance with Article 433 of the CRR. Volkswagen Bank GmbH is classed as a large institution in accordance with Article 4 (1) 146 of the CRR and therefore observes the frequency requirements stipulated in Art. 433a of the CRR.

In accordance with Article 433 of the CRR, the Pillar 3 Disclosure Report is updated regularly to meet the requirements and published shortly thereafter as a separate report on Volkswagen Bank GmbH’s website in the Investor Relations section. All requisite disclosures are made solely in this report.

Where available, the format templates stipulated by the EBA guidelines as well as the implementation and regulation standards for the disclosure of the information in accordance with Section 8 of the CRR have been utilized.

The Pillar 3 report complies with applicable legal and regulatory requirements and has been prepared in accordance with the internal policies, procedures, systems and checks.

The Board of Management has approved this report for publication and confirmed that Volkswagen Bank GmbH has complied with the requirements of Article 431 (3) of the CRR.

Braunschweig, June 2026

The Management Board

Disclosure of key metrics

The necessity of regulating the banking sector is derived from the objectives of banking supervision. The main objective of government regulation by supervisory authorities is to ensure the proper functioning of the financial system. In particular, minimum capital and liquidity requirements for banks have been defined in an EU regulation (CRR). In addition, this regulation defines maximum leverage levels.

To monitor its equity ratios, Volkswagen Bank GmbH has a capital planning process which ensures compliance with the minimum regulatory ratios including in the event of increasing business volumes. Monitoring of the leverage ratio is also embedded in this capital planning process. Observance of the liquidity ratios is safeguarded through liquidity management.

The relevant key parameters for determining the minimum ratios for equity, liquidity and leverage as well as other relevant information are summarized in the table below. This table sets out information from the COREP report on regulatory own funds, total risk exposure and the capital ratios as well as the combined capital buffer and total capital requirements. In addition, it shows the leverage ratio, the liquidity coverage ratio (LCR) and the net stable funding ratio (NSFR).

Volkswagen Bank GmbH is required to publish a quarterly Pillar 3 report. Accordingly, the key metrics presented in the table relate to the current reporting period ending March 31, 2026 (Column A) and the previous quarters.

The following table presents the key metrics of Volkswagen Bank GmbH on a sub-consolidated level in accordance with IFRS.

TABLE 1: EU KM1 – KEY METRICS TEMPLATE

	in € millions	Mar 31, 2026	Dec 31, 2025	Sep 30, 2025	Jun 30, 2025	Mar 31, 2025

17	Liquidity coverage ratio (%)	258.64%	228.47%	257.98%	311.65%	316.94%
Net Stable Funding Ratio						

	in € millions	Mar 31, 2026	Dec 31, 2025	Sep 30, 2025	Jun 30, 2025	Mar 31, 2025
18	Total available stable funding	126,178.9	114,435.0	102,717.9	102,208.7	99,303.9
19	Total required stable funding	88,072.4	86,350.5	84,177.7	85,140.5	85,482.3
20	NSFR ratio (%)	143.27%	132.52%	122.03%	120.05%	116.17%

The total capital of the Volkswagen Bank GmbH institution group of €23,513.0 million on a sub-consolidated basis comprises solely Common Equity Tier 1 (CET1) capital. The increase in own funds compared with December 31, 2025 is described in a separate chapter.

As of March 31, 2026, the total risk exposure amount stands at €139,922.5 million and the leverage ratio at 13.00%.

The liquidity coverage ratio (LCR) reflects the ratio between existing highly liquid assets and Volkswagen Bank GmbH's net liquidity outflows (difference between cash outflow and cash inflow) over a 30-day horizon. The liquidity coverage ratio must not be any less than 100%. The data contained in the table above shows the amounts applicable on the respective reference dates.

The net stable funding ratio (NSFR) indicates Volkswagen Bank GmbH's funding over a horizon of more than one year. NSFR is the ratio of the available amount of stable funding to the required amount of stable funding. It must not be any less than 100%. The data contained in the table above shows the amounts applicable on the respective reference dates.

Own funds

PILLAR 1 REQUIREMENTS

The own funds of an institution or an institution group are measured by reference to the prudential capital ratios. In this connection, the Volkswagen Financial Services AG financial holding group must observe the minimum capital ratios defined in Article 92 of the CRR at the consolidated level. According to this, a Common Equity Tier 1 capital ratio of at least 4.5%, a Tier 1 capital ratio of at least 6% and a total capital ratio of at least 8% are required.

The Volkswagen Bank GmbH group of institutions must also observe these minimum capital ratios at the sub-consolidated level. As Volkswagen Bank GmbH has applied the waiver from July 1, 2024, it is not necessary for the minimum ratios to be observed at the level of the individual institution. Moreover, Volkswagen Bank GmbH must also meet the regulatory capital buffer requirements. These provide for a capital conservation buffer of 2.5% and the institution-specific, countercyclical capital buffer. It is calculated as the weighted average of the countercyclical buffer rates determined in the individual countries in which the relevant exposures are located. As a rule, these rates are between 0% and 2.5%.

The capital buffer for other systemically important institutions has been applied at Volkswagen Financial Services AG since January 1, 2026. BaFin has set a capital buffer of 0.25%, which applies solely to the Volkswagen Financial Services AG financial holding group on a consolidated basis. The capital buffer does not apply to the Volkswagen Bank GmbH group of institutions on a sub-consolidated level. The capital buffer for globally systemically important institutions does not apply to Volkswagen Financial Services AG.

PILLAR 2 REQUIREMENTS

In its capacity as the competent supervisory authority for Volkswagen Bank GmbH, the European Central Bank (ECB) can decide in the Supervisory Review and Evaluation Process (SREP) to impose a capital add-on that must be satisfied in addition to the statutory minimum capital ratios and the capital buffer requirements. The legal basis for this capital add-on, or Pillar 2 requirement (P2R), is Art. 16 of Council Regulation (EU) No. 1024/2013 conferring specific tasks on the European Central Bank concerning policies relating to the prudential supervision of credit institutions. The decision of the ECB requires Volkswagen Bank GmbH to satisfy, at a sub-consolidated level, a total SREP capital requirement (TSCR) of at least 10.25% and a Pillar 2 requirement of 2.25%. The Pillar 2 requirement calls for the provision of CET1 of at least 56.25%. The remainder of the Pillar 2 requirement can be met with Additional Tier 1 (AT1) capital and Tier 2 (T2) capital.

As a result, the Pillar 2 requirements of 2.25% in the form of CET1 of 1.27% and/or in the form of T1 of 1.69% must be observed.

All minimum requirements were observed on the sub-consolidated level of Volkswagen Bank GmbH at all times during the reporting period.

Structure of own funds

DISCLOSURE OF OWN FUNDS

The obligation to disclose own funds with the aim of increasing market discipline is derived from the CRR disclosure requirements. Disclosure of own funds and own funds requirements allows market participants to gain an insight into Volkswagen Bank GmbH's risk profile and capital adequacy.

The own funds in accordance with Article 72 of the CRR consist of Common Equity Tier 1 capital and Tier 2 capital. No additional Tier 1 capital has been issued by Volkswagen Bank GmbH or any of the group entities included in the prudential scope of consolidation.

Volkswagen Bank GmbH is currently not utilizing the "quick fix" regulatory transitional provisions governing the initial effects from first-time application of IFRS 9 under Article 473a of the CRR. The disclosures on own funds and the capital and leverage ratios take account of the full impact of the introduction of IFRS 9.

COMMON EQUITY TIER 1 CAPITAL

Common Equity Tier 1 capital primarily consists of equity reported in the balance sheet as defined in IFRS. In turn, the equity reported in the balance sheet is composed of ordinary share capital and disclosed reserves. Volkswagen Bank GmbH's share capital is fully paid up and unrestricted.

The disclosed reserves consist of the capital reserves and retained earnings. Moreover, Common Equity Tier 1 capital includes retained profits which have not yet been approved and are not tied to planned dividend payouts or foreseeable expenses (e.g. tax expenses). A special reserve for general banking risks recognized by Volkswagen Bank GmbH in accordance with section 340g of the *Handelsgesetzbuch* (HGB – German Commercial Code) is reported in the eligible disclosed reserves.

The increase of €745.4 million in Common Equity Tier 1 capital over December 31, 2025 is primarily due to the updated static component in the accrued profits after the approval of the consolidated financial statements.

DISCLOSURE OF OWN FUNDS REQUIREMENTS AND RISK-WEIGHTED EXPOSURE AMOUNTS

The basis for the provisions concerning own funds requirements is formed by the regulatory provisions contained in Article 92 of the CRR. In this connection, it is necessary to calculate total risk exposure, which is derived from the calculation of the risk-weighted assets (RWA) for the credit risk including the counterparty credit risk as well as operational risk, market risk and for the credit valuation adjustments (CVA).

The following table provides an overview of the breakdown of the total risk exposure amount and the own funds requirements. As Volkswagen Bank GmbH is subject to a quarterly disclosure duty, the figures in the table refer to the current reporting period ending March 31, 2026 as well as the previous quarter ending December 31, 2025.

TABLE 2: EU OV1 – OVERVIEW OF RISK-WEIGHTED EXPOSURE AMOUNTS

27	Floor adjustment (before application of transitional cap)	0.0	0.0	X
28	Floor adjustment (after application of transitional cap)	0.0	0.0	X
29	Total	139,922.5	139,847.2	11,193.8

As of March 31, 2026, the credit risk excluding the counterparty credit risk stood at €126,911.1 million. The credit risk excluding the counterparty credit risk accounts for 90.7% of the total risk exposure amount, thus constituting the largest risk type. Volkswagen Bank GmbH uses the Credit Risk Standardized Approach (CRSA) to quantify credit risks.

The counterparty credit risk stood at €496.2 million and the operational risk at €10,715.0 million.

Liquidity risk

Responsibility for liquidity planning lies with the Treasury department of Volkswagen Bank GmbH and Group companies.

The expected liquidity flows of Volkswagen Bank GmbH are pooled and evaluated by Treasury. Daily liquidity requirements are calculated by Cash Management in the Treasury Back Office of Volkswagen Bank GmbH. Liquidity surpluses and shortfalls are eliminated by investing or raising cash with external banks as well as through ECB tenders.

CONCENTRATION OF LIQUIDITY AND FUNDING SOURCES

The Volkswagen Bank GmbH Group is funded largely through direct banking deposits and by capital market and asset-backed security programs. Volkswagen Bank GmbH also participates opportunistically in the ECB's open market transactions.

In addition to a broadly diversified range of funding sources, the Volkswagen Bank GmbH Group has a funding concentration towards the Volkswagen Group (cash collateral and deposits from subsidiaries, in its function as house bank).

In addition to funding as such, the Volkswagen Bank GmbH Group pursues a central approach for creating liquidity reserves to ensure daily solvency and the observance of liquidity risk indicators and regulatory ratios (including LCR, NSFR) at all times.

DERIVATIVE EXPOSURES AND POTENTIAL COLLATERAL CALLS

Interest-rate and currency swaps are traded within the Volkswagen Bank GmbH Group and included in the calculation of the LCR. OTC derivative contracts are hedged via collateral for each individual counterparty. Derivatives handled by a central counterparty (CCP) are collateralized in the form of variation and initial margins.

Derivatives are expected to generate only minor liquidity effects.

CURRENCY MISMATCH IN THE LCR

In accordance with the Commission Delegated Regulation (EU) 2015/61 of October 10, 2014, the Volkswagen Bank GmbH Group is required to hold sufficient high-quality liquid assets (HQLA) in the corresponding currency within the following 30 calendar days to cover the net liquidity outflows calculated for the LCR report. A perfect match between the currency of the HQLAs and the denomination of the net liquidity outflows is not sought. Corresponding fluctuations and currencies that are not identified as currencies to be bought are compensated for in euros via HQLAs.

DESCRIPTION OF THE DEGREE OF CENTRALIZATION OF LIQUIDITY MANAGEMENT AND THE INTERACTION BETWEEN THE INDIVIDUAL GROUP INSTITUTIONS

Within the Volkswagen Bank GmbH Group, the LCR is managed centrally by Group Treasury Volkswagen Bank GmbH. The HQLAs for the prudential scope of consolidation of the Volkswagen Bank GmbH Group are held centrally and also managed by Group Treasury.

Other items in the LCR calculation which are not included in the LCR disclosure template but which are considered to be relevant in view of the liquidity profile are planned liquidity inflows (e.g. ABSs or capital market issues) which are not classed as legal cash flows for LCR purposes.
